Talking About Tobacco: 
CHOICES and Peer Support
Broadcast on October 25, 2021

Workshop Description
The CHOICES program was created in 2005 to address the serious healthcare problem of smoking among individuals with mental illness. Tobacco use among individuals with a mental illness or addiction is a significant health problem, with numerous studies showing higher rates of smoking and lower rates of smoking cessation in this population.

The CHOICES program uses a unique consumer-driven perspective for addressing tobacco among people with mental illness. CHOICES stands for “Consumers Helping Others Improve their Condition by Ending Smoking” and is an important name, symbolizing empowerment and personal choice in recovery. CHOICES employs mental health peer counselors to deliver the vital message to smokers with mental illness in the community that addressing tobacco is important and to motivate them to seek treatment. CHOICES mental health peer counselors called Consumer Tobacco Advocates (CTAs) serve as tobacco-focused consultants to consumers to assist them with linkages to treatment, referrals, advocacy, support and the provision of educational materials. CTAs are paid positions, for non- or former-smokers and most work for the program part-time.

The goal of the CTAs is not to provide direct tobacco treatment but to visit mental health centers, psychiatric hospitals, group homes, self-help centers, health fairs and conferences to communicate with and educate consumers about their smoking. They also provide resources about places in New Jersey where smokers with mental illness can receive tobacco dependence treatment. CHOICES is based in the department of psychiatry at Robert Wood Johnson Medical School and partnered with the Mental Health Association of New Jersey, a consumer-driven mental health advocacy organization, and the New Jersey State Division of Mental Health and Addiction Services, a primary source of funding for the program.

Presenters: Trish Dooley Budsock, Azeem S., Deidre S., and Lisa E.
Moderators: Susan Friedlander and Rita Cronise.
Objectives
By the end of this session, you will be able to:

• Identify the scope of tobacco dependence problem among mental health consumers.
• Discover CHOICES, a peer delivered tobacco dependence education and intervention program in New Jersey.
• Provide an overview of the implications of smoking during the Covid-19 Pandemic.
• Identify aspects of the CHOICES model that best adapt to the work you currently do.

PRESENTER BIOS (In order of appearance)

Trish Dooley Budsock
Trish is a Program Manager and Mental Health Clinician at the Division of Addiction Psychiatry. She has a master’s degree in Counselor Education, and is a Licensed Professional Counselor, as well as a Tobacco Treatment Specialist.

She is the Director of CHOICES (Consumers Helping Others Improve their Condition by Ending Smoking), a peer outreach program that utilizes peer counselors to address tobacco in the mental health community. She has been with the CHOICES Program since 2010, and the Division since 1998.

Azeem S.
Azeem is an ex-smoker who quit 9 years ago. He attributes his success in quitting to using Nicotine Replacement Therapy and to support from the Tobacco Dependence Program at Rutgers. He loves the feeling of being able to breathe fully without coughing and appreciates the return of his ability to workout and be active.

He also very much enjoys being a Consumer Tobacco Advocate and helping others achieve their goal of quitting. He has a Bachelors degree in Biology and also attended medical school and film school for some time.

Deidre S.
Deidre is an ex-smoker who attributes her success to attendance at support groups, use of the website www.njquitnet.com and the use of nicotine replacement therapy. She started attending Dr. Williams’ quit smoking support group over 15 years ago. She made many (8) attempts at stopping smoking before this last successful quit attempt. She has finally stopped for good this time. Quitting smoking has enabled her to live a much healthier lifestyle, which includes working out at a gym and eating healthy foods.

Deidre is interested in speaking to consumers and helping them quit smoking and live healthier lives. It has been 14 years since Deidre had her last cigarette. Deidre has also saved $227,000 as a result of quitting smoking, which includes the money she earned as an advocate for CHOICES.

Lisa E.
Lisa joined CHOICES in October 2013. She is a former long time smoker who admits she was in denial about the health and financial consequences of smoking. Lisa feels fortunate to have found help at the Tobacco Dependence Program at Rutgers, where she had individualized counseling, nicotine replacement therapy and joined the support group. On her second quit attempt, she was successful and remains smoke free.

Lisa’s message to consumers is since she has quit, she feels better, breathes better, looks better, and has extra money in her pocket.
MODERATOR BIOS

Susan Friedlander, LCSW
Susan Friedlander is the director of Community Integration and Wellness Initiatives at OMH’s NYC Field Office. She received her B.A in Political Science from Kenyon College and her M.S.W. from New York University. Susan has a wide range of experience in the mental health field and has worked in clinics, inpatient hospitals, and psychiatric rehabilitation programs as a practitioner. After several years at South Beach Psychiatric Center where she developed innovative interactive television programming, she joined the NYC Field Office as part of the Assisted Outpatient Treatment Team. Subsequent roles have included serving as the Queens Borough Coordinator and the lead for Personalized Recovery Oriented Services programs. More recently, Susan has had the opportunity to focus on tobacco interventions including the development of “Crushing Cravings”, a 12-session curriculum for smokers in pre-contemplation. As a former tobacco user, she is passionate about assuring that people who participate in mental health services have access to stagewise tobacco interventions which support recovery and community inclusion. In her non-work hours, she adores travel, the arts, gardening, wildlife, forest-bathing, yoga and hanging out with Chloe, a semi-feral kitty she adopted in May 2020.

Rita Cronise, MS, ALWF
Rita holds a position as distance faculty at Rutgers University on the instructional design team for the Academy of Peer Services, where she also serves as the Coordinator for the Virtual Learning Community. She has been involved in the peer support movement for over 20 years and uses her lived experience both as a person with a major mental health condition and as a facilitator of many forms of peer support to provide resources to those in the peer support workforce. Rita is a former smoker who understands the challenges of managing nicotine and other forms of addiction. In previous webinars she shared her personal story of tobacco use and her motivation for change.

Maryam Husamudeen (Technical Support for this session)
Maryam Husamudeen has been a Peer Bridger for NYAPRS since 2013 and the User Support Staff for APS since 2018. Her work experience allows her to be highly skilled in the field of High-Risk populations. She is an Advocate and Consultant. She is very dedicated to servicing the community. Her objective is to enlighten service providers on the barriers to care of these populations and develop Quality Improvement Techniques to have a more efficient interaction. She is a seasoned nonprofit professional with over 30 years’ experience. She has earned her BA in Sociology. She is a NY State Certified Peer Specialist and newly trained in eCPR amongst other certifications.
