

Patient Navigators

NYU Community Medicine is recruiting 4+ Navigators pilot a new program that aims to engage shelter clients in medical, substance use and mental health care. Staff will work in NYC shelters to conduct outreach, health education, assessments, linkage to care, care coordination, telemedicine support and continuity of care services. Locations: Brooklyn (BedStuy, Bushwick, East NY) or Wards Island. Ideal candidates understand the basics of health care and benefits navigation, are outgoing, creative, motivated to improve health care access and equity, comfortable with crisis management, and have the perseverance to overcome barriers.

☆ Please share with your networks! This a great opportunity to improve health care for people experiencing homelessness - the need is tremendous.
